“Rhino literally saved us in a lot of ways when it came down to helping with security deposits for move in! My wife and I were in a struggle and needed to find a place in another state ASAP and were having issues with a security deposit of \$8000. Rhino helped us be able to move into our home comfortably! We were also planning our wedding at the time as well, so a lot of our savings were already used up before. We renewed our lease at our home for another year and went through rhino again and no issues at all! Thank you for providing these opportunities to help!”
